## Attend Elks' Carnival, Sat. and Mon., July 15-17

### Congregation Honor Rev. and Mrs. G.A. Kettlys

Celebrate 25th Wedding Anniversary; Presented With Chest of Silver; Social Evening Enjoyed.

On Tuesday evening members of the congregation of St. Paul's United Church called at the manse to congratulate their pastor and his wife, Rev. and Mrs. G. A. Kettlys, on the occasion of their silver wedding anniversary.

The manse was decorated with seasonal garden flowers. The table, covered with a beautiful lace cloth, was centred with a silver basket of flowers.

On behalf of the congregation, Mrs. Robert Holmes presented the happy couple with a chest of silver. Miss Corinne Fraser, on behalf of the CGIT group, gave Mrs. Kettlys a bouquet of carnations as a token of their esteem and good wishes.

During the evening the guests were entertained by solos by Mrs. J. Bell and a reading by Mrs. Holmes. Tea was poured by Mrs. H. Dunlop and Mrs. R. Holmes and ably served by the CGIT girls. After some community singing, the gathering broke up with singing "For they are jolly good fellows." The guests departed expressing good wishes for their minister and his wife. It was much regretted that their two eldest children, Alva, who teaches at Millet, and their son Ross, who is serving overseas with the RCAF, were unable to be present.

The Ladies Aid of the United Church wish to thank all those who in any way assisted with the reception at the manse on Tuesday evening.

### Brother of Mrs. James Naylor Died At Nanaimo

NANAIMO, July 6, Michael Harvey Murphy, 67, Nanaimo merchant, died Wednesday. For the past 31 years he has been in business here.

He took keen interest in promoting sports. He was a past president of the local Board of Trade; past vice-president of the Rotary Club, and Nanaimo Retail Merchants Association; a member of the Knights of Columbus and of the Eagles lodge. He took a leading part in the Nanaimo Central Liberal Association activities.

He leaves his wife, two sons, Reginald in business with his father here, and Harvey, employee of the Boeing plant, Vancouver; two sisters, Mrs. H. Richards, New Westminster, and Mrs. J. Naylor, Coleman, Alta.

Editor's Note: The late Mr. Murphy operated a store in partnership with George Cobley at Frank from 1906 to 1912 and is probably still remembered by old-timers in the Pass.

### THE JOURNAL DESIRES SOLDIERS' PICTURES

The Journal is in need of a number of soldiers' pictures in order to maintain the "Spotlight" series sponsored by The Friendly Store. Pictures in black and white make the best reproductions. Photographers' pictures are much superior for reproduction than ordinary snapshots.

There are several pictures in The Journal office still waiting for the owners. Will the latter please call for them.

There are those who, in their post-war plans, still believe it possible to strengthen the weak by weakening the strong.

### HIGH SCHOOL STUDENTS SPONSOR YEAR BOOK

Coleman high school students this year sponsored a year book, the first of its kind ever to be sponsored by local students.

It records the activities of the high school students during the past year as well as showing the pictures of every high school student, the teaching staff and the editorial staff. In addition the picture of the high school and Air Cadet Squadron No. 73 are also shown.

An enormous amount of work went into its preparation and production, but the finished product is one that the students can well be proud of.

On Wednesday morning groups of students were to be seen at the high school entrance busily scrawling their names on the autograph pages for their fellow students. In the years to come fond memories may be brought to mind by perusing these names and the stories contained in the year book itself.

### Pte. Wesley MacQuarrie Killed In Action

A wire was received Sunday afternoon from Ottawa informing Mr. and Mrs. Charles MacQuarrie of the death in action in Normandy of their son, Pte. Wesley, aged 23, on Saturday July 1.

Pte. MacQuarrie, according to a letter received from him a few days prior to the wire, informed his parents that he had been with the first assault troops on the Normandy shores. He had been in action fourteen days before being killed in fierce fighting.

Born at Cabri, Sask. he came with his parents to Coleman when five years old. He was educated and grew into young manhood here. He worked for a little more than a year at International tippie before enlisting in the army. He had been overseas two years last March and landed in France June 6.

Besides his parents he is survived by a brother, Pte. Allister, who was last heard from in England, and three sisters.

### NOW OUT OF ARMY

Pte. (Rev.) Roy C. Taylor is visiting in Edmonton with Mrs. Taylor and family, having secured an honorable discharge from the army after three years' service. For the present Mr. Taylor plans to visit friends in Edmonton and Southern Alberta. Two sons are serving with the RCAF, Ronald overseas and Roy on patrol duty in British Columbia. Mrs. Taylor is nursing at the University hospital, Edmonton, and Betty is switchboard operator at the U.S. army hospital, Edmonton.

### CARD OF THANKS

I wish to extend my sincere thanks to all who have extended sympathy in my recent bereavement.—Laura M. McBurney.

### V.G. Pavlow, Russian Consul At Ottawa, Visted Coleman's Russian Citizens on Tuesday Afternoon

First Time Coleman Has been Honored by Visit from So Important Russian Diplomatic Official; Banquet Held in his Honor; Given Civic Welcome

Coleman's Russian citizens received great honor on Tuesday afternoon when their invitation to G. A. Pavlow, Russian consul at Ottawa, was accepted, and he stopped off here for the evening while enroute from Vancouver to Ottawa. A large Russian delegation met him at the train.

A banquet was held in his honor at 6 o'clock Tuesday evening which was attended by the Russian people and representatives from various Balkan countries resident here as well as Deputy Mayor W. Dutil and several citizens representing local organizations.

D. Hoyle, chairman, introduced the honored guest prior to the supper. Following a sumptuous feast the chairman, in his opening remarks, bade welcome to the honored guest. Mr. Hoyle is also chairman of the C.N.P. Canadian-Soviet Friendship Council, and extended a welcome from that body as well as a welcome from Coleman branch of the A.T. A. and also the school students.

Deputy Mayor W. Dutil extended the honored guest a civic welcome and stated the town was proud to play host to Mr. Pavlow. He praised the work of the local Russian citizens in both Red Cross and supporting war charities.

Mack Stigler, secretary of the U.M.W.A., Coleman branch, welcomed the honored guest to Coleman on behalf of the mine workers. Censorship had been lifted, stated Mr. Stigler, and the real truth about the Soviet had been revealed. As a result friendship had sprung up between the allied Nations and the Soviet which should be safeguarded both in war and peace.

Mayor Enoch Williams, of Blairmore, paid tribute to the heroic Red Army for the valuable service rendered in the winning of the war. He stated we would have to be ever vigilant that the friendship between Britain, Canada, U.S.A. and the Soviet Union be safeguarded. He stated Russia was the greatest Democracy in the world.

### Cigarette Fund Notes

Dear Sirs: Received two cartons of cigarettes which had been forwarded from England. Thanks a million, they are really appreciated. Have met Bill Ferby and Herman Hirsch since coming here and both are doing fine. Attended the CWAC show which is touring this theatre and enjoyed it very much.—J. R. Jones.

Dear Sirs: Just received your very welcome parcel of 300 cigs. and thanks a million. My cigs are arriving well and I have about 1200 on hand.—Ronald Jones.

Dear Friends: I have received your cigarettes and wish to thank you very much. Am doing well over here.—J. Jenkins.

Dear Sirs: Thanks for cigs. received. They are sure appreciated. More than ever now as we are on the move. The towns here are completely wrecked as well as German tanks and guns. Hope to be in Rome soon.—Archie Wragg.

Dear Sirs: Once again I must thank you all very kindly for the

Other speakers who made addresses in their native languages included Nick Urewich, Mrs. P. Lesinaku, Louis Kalavoda, Andrew Haluck, Mrs. A. Haluck.

Peter Meroniuk stated the local Russian people had every right to be excited over the visit of a representative of the Russian government. He had great admiration for Russia for experimenting as she had done these past years.

He stated Mr. Pavlow had shown keen interest in local conditions. Coleman had distinguished itself by the support it had sent to national headquarters.

Mr. Pavlow thanked all for their wonderful welcome. He gave a resume of Hitler's treacherous attack on Russia, of how he had destroyed the Soviet territory he had captured and his endeavor to destroy Soviet culture and Germanize the Soviet people. Hitler had possessed great advantages and won initial success until the Soviet government and people had risen in mortal fury and driven back the invader.

He listed three aims of the Soviet government. To free Soviet territory, to free Soviet citizens who have been sent into slavery by the Nazis and to free the invaded countries of the Balkans. The Soviet Army was fed by the free peoples of the Soviet who were fast pushing Hitler from the sacred soil of the Soviet. The world was a witness to the horrible crimes of the Germans. He praised Canada's aid to the Soviet.

He dealt with the misunderstanding that the world had in regard to Russia before the war. Several months after the German Soviet conflict doubt still remained in the minds of the Allied peoples as to Russia's ability to stand up. He stated the real strength of the Soviet Army lay in the strength of her people. Russia now had superiority over Germany in the munitions of war. He stated there was reason to believe that the war was entering its last stage.

Following his address he was presented with two bouquets of flowers from little girls dressed smartly in native costumes.

A dance followed the banquet and addresses.

### LOCAL SCHOOLS CLOSE FOR HOLIDAYS FRIDAY

Schools will close for the summer at noon Friday, July 14, when departmental examinations, now occupying the close attention of students, become history. High school pupils are now deep in the throes of the annual "exams," which will be finished when those in grade 9 complete their English, Part 2 (language) test, and grade 12 students write off their Latin 3 Friday morning.

For those pupils who are not required to write "finals," holidays commenced July 6.

Students will return to school on Monday, Oct. 2, after approximately two and a half months of summer holidays.

During the lengthy vacation it is expected that many of the students will be able to alleviate the critical manpower shortage which is greatly hindering both farmers and business men.

### Sgt. George Kroesing Missing In Action

Was Among Canadian Parachutists to Drop Near Caen in Opening Phase of Invasion; Enlisted Sept. 13, 1939

A wire dated July 7 has been received this week from Ottawa by Mr. and Mrs. Ernest Kroesing informing them that their eldest son, Sgt. George Kroesing, is officially reported missing in action. The date when he became missing is not yet available and other information will be forthcoming.

Born in Pincher Creek Sept. 23, 1918, he came to Coleman with his parents when two years of age and has resided here till his enlistment in Sept. 13, 1939. He worked for a little more than a year at International.

He enlisted with the Calgary Highlanders and went overseas in August, 1940. Last year he transferred to the paratroopers and took his first jump in February, 1944.

In the July issue of the Montreal Standard he is shown along with a number of other Canadian parachutists who dropped near Caen in the early hours of the invasion of France.

He has a brother, James, overseas and a sister in the CWAC.

### HEATING SYSTEM BEING CHANGED AT PALACE THEATRE

Mr. Knapman, plumber, of Blairmore, is busy at the Palace theatre this week changing the heating system. All the radiators have been removed from the walls and will be placed in a battery at the front of the theatre. A casing will be built over them with a screen in front. Fans will be installed to blow the heat through the theatre.

Mr. Norman Miller, of Calgary, was working on the sound equipment this week and is expected to improve the sound considerably.

### Time Bombs

The first step in building a sound family of nations is to build a sound nation of families.

If there is confidence between nations, no police force will be needed. If there is no confidence, no police force is big enough to prevent war.

The problem after the war is not so much demobilization of our forces as remobilization of our motives.

It is difficult to visualize a shortage of manpower when two armies are available for a fifty second radio commercial.—Indianapolis News.

### Elks Prepared To Welcome Record Crowd

Saturday Ed's Orchestra, Monday Arcadians; Tickets on Major Prizes Having Good Sale; Proceeds for Elks' Charities.

A gang of men have been working all evening this week building booths and laying the dance floor and now all is in readiness for the big annual Elks' carnival this Saturday and Monday evenings.

Good news for dance lovers is the announcement that two dance orchestras have been engaged. Ed's orchestra will furnish the music on Saturday evening, while Arcadians' orchestra will take over on Monday evening.

The six major prizes have been on display at Coleman Hardware store and the ticket sales have been very good to date. Three prizes will be raffled each evening.

A wide and varied selection of prizes will be housed in the dozen or more booths, while several games of chance will be in operation.

A large attendance is expected from neighboring Pass towns to help swell the crowd anticipated by the Elks.

Funds for valuable charity work is derived from these annual carnivals and the public will no doubt support the carnival this week end in grand style. A dollar spent is a dollar given to the Elks for good community work.

### Director of Records Asks Co-Operation By Soldiers' Next of Kin

The Director of Records, Army, Ottawa, has sent out a special request asking for the co-operation by the next-of-kin of Canadian soldiers serving overseas in notifying his department of changes of addresses, particularly vacation time movements.

It is pointed out that during the summer months many Canadians leave their permanent addresses for summer homes or resorts. If no forwarding address is left, telegraph companies encounter difficulty in making deliveries of casualty telegrams.

It is further pointed out that next-of-kin be requested to always mention the rank and full christian names of officers in addition to surname and the number, rank and full christian names of other ranks, in addition to the surname. This facilitates matters in checking the enlistment cards of a particular name to find the name of a soldier.

### FO TOM GOLDRING NOW IN YUKON

A card has been received by Mr. and Mrs. Tom Goldring, of Nanaimo, from their son, FO Tom Goldring, advising them that he is now residing in the land of the midnight sun. He stated he saw Lac La Barge, where Sam McGee was cremated. The Alaska highway he describes as a "marvel."

### RED CROSS NOTES

Another shipment of Red Cross goods was shipped to Calgary on July 11.

It included 2 quilts, 20 pairs girls' bloomers, 10 pairs boys' undershirts, 20 pairs boys' undershirts, 10 pairs boys' socks, 5 sheets, 2 women's sweaters and 43 pairs men's socks.

### Time Bombs

Unity is more than treaties. It is built, as confidence is built, by many selfless acts. And can be broken by a single inconsiderate demand.

Easy to roll, delightful  
—to smoke

FINE CUT CIGARETTE TOBACCO

## Funds For Rehabilitation

CANADA'S FINANCIAL CONTRIBUTION to the work of the United Nations Relief And Rehabilitation Administration for this year will be 77 million dollars. This was announced recently by Hon. J. L. Seely, Minister of Finance, who explained that the contribution is being made on the basis of one per cent of the national income for the year ending June 30th, 1943. The Dominion Bureau of Statistics reported that the national income for that period was 7,615 million dollars, and thus the sum of 77 millions was agreed upon as the Dominion's share in the essential work of rehabilitation. The amount of the contribution of the United States was determined in the same manner, on the basis of the estimated national income of that nation.

## Great Service To Humanity

Great preparation has gone into arrangements for the organization of relief units and specialists in rehabilitation, which follow the United Nations forces into enemy held territory. After giving much careful consideration to the problems with which they have to deal, officials of the U.N.R.R.A. agreed that food, clothing and medical care would be the most essential needs of the liberated people. Next to these in importance were placed agricultural implements, seeds, household goods and other articles necessary to a return to normal living conditions. With these conclusions in mind, the members of the Administration have built up an organization which is doing a great service to humanity now, and will continue to do so for some years to come.

## Need For Food In Many Lands

The plight of agriculture in Europe is one of the many concerns of those in charge of rehabilitation. In addition to the degradation which it has undergone during the German occupation, there is the further devastation left by the Nazis in the path of their retreat. Much has been done to prepare for the re-establishment of the farms of Europe. Measures have been taken to train refugees from occupied countries in the most modern methods of farming, and arrangements have been made to place the latest findings of British and other Allied scientists, in respect to agriculture at the disposal of the farmers of Europe. In Britain there is also a "Seeds for Europe Fund", which receives voluntary contributions for seeds and farm implements for the liberated countries. Meanwhile, the need for food from this continent is great, and a bounteous harvest in Canada will give us the opportunity of alleviating distress among many less fortunate people.

## The Newspaper Boy

Youngsters Who Peddle Newspapers Get Valuable Business Training

It has been proved time and again that youngsters who peddle newspapers get valuable training that paves the way for a successful business career.

Evidently this early training also helps to push them up the ladder of success in the army.

Major General James Ulio, adjutant general of the U.S. Army, stated in a recent article:

"An army doctor in Italy, as a result of his observation in the field, has said he believes the best officers are ex-newspaper boys."

It is the General's contention that the best officer material is coming from the ranks of young men who learn to act and think for themselves and make money as boys.

Resourcefulness is one of the essential qualities of a good army officer. The little merchant who peddles papers has a splendid opportunity to develop that quality which spells success in many directions—Kitchen Record.

## WILL HAVE RESCUE NET

Canada's corvettes and destroyers are being equipped with the Rosthern rescue net, a device that scoops exhausted wreck survivors from the sea. Men so numbed by the cold water that they cannot help themselves, or so heavily loaded with floating oil that they scarcely can be hauled aboard a rescue boat, are picked up by it and hoisted to the deck.

## BURGESS Flashlight BATTERIES

WHEN THE WAR IS OVER... More of them will be available!

MADE IN CANADA  
BURGESS BATTERY COMPANY  
Niagara Falls, Ont.

## Price Control And Rationing Information

Q.—How do I obtain tea-coffee coupons for children who have become 12 years of age since No. 4 book was issued?

A.—If they reached the age of 12 on or before April the 15th, they should have been supplied with the tea and coffee coupons when their number four book was secured. If they have reached 12 years since, the time you will have to wait until No. 5 ration book is issued.

Q.—I want to buy some sugar for canning purposes. Will you tell me where I get the "F" coupons?

A.—The "F" coupons for canning sugar are in your No. 3 ration book. The first five coupons became valid May 25, but the second five cannot be exchanged for sugar until after July 6. Each coupon is worth one pound of sugar. It is, therefore, necessary that your No. 3 ration book be placed in safe keeping.

Q.—Where could I obtain a list of the new prices on beef?

A.—All retail meat markets must display the beef chart showing the maximum prices that can be charged for the various grades of beef. The new prices are shown on black and white strips.

Q.—Will you kindly tell me what the prices of milk and sandwiches should be on trains?

A.—Prices of refreshments sold by train vendors are controlled by the Wartime Prices and Trade Board. Milk sells for 10c for a half-pint sealed carton and sandwiches sell for 15c.

Q.—Where can I obtain the booklet "Be-Make Wrinkles", which is a guide for maintaining the family wardrobe in wartime?

A.—These booklets can be obtained by writing to your nearest Wartime Prices and Trade Board office in your province. Canadian women have saved at least 500,000 yards of material for essential purposes through their activities in Canada's Re-make clothing centres. To date 25,463 women have made over 98,471 garments.

Please send your questions or your request for the pamphlet "Consumer's News" or the Blue Book (the book in which you keep track of your ceiling prices) mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

## Imitates Hitler

Veteran of this, and the last war, Maurice Thorburn, 39, aircraft worker of MacDonald Brothers, Winnipeg, Man., can do an imitation of Hitler that will pass in any strong light. Shortly after he joined the Royal Canadian Engineers in Sept. 1939, he gave a pre-view for high ranking military men which went over with a bang. New to theatrical work, he found himself in demand at army entertainments. And when he went overseas in 1940, he "executed" Hitler for the troops at Aldershot. Returned to Canada in 1942, he joined MacDonald Brothers' Aircraft Ltd., where he is procurement supervisor. In the last war he served with the Royal Navy.

## Coming To Canada

Many Wives And Children Of Canadian Soldiers Coming From Britain

Major Gen. B. W. Browne, of Ottawa assistant national commissioner of the Canadian Red Cross, said in an interview in Winnipeg that the flow of British dependents of Canadian soldiers from the United Kingdom to Canada—temporarily halted before the invasion, will shortly be resumed.

He estimated there are about 20,000 more wives and children of Canadian soldiers to come to Canada.

The steel in a tricycle would make a shell for a 75-mm. howitzer, and that in an average baby carriage would make a .45-calibre submachine gun.

## Flax Production

Over Two Million Acres Devoted To Flax This Year

Approximately 2,069,000 acres of flax are scheduled to be grown in Canada this year for linseed oil and oil cake purposes, was revealed in an interview in the commons for A. H. Bence (P.C., Saskatoon).

The return gave last year's flax production for linseed and oil cake purposes as 17,900,000 bushels, and revealed that eight flax processing plants were constructed in 1943.

The new plants were built in Montreal, Winnipeg, Toronto, Vancouver, Medicine Hat, Alta., Hamilton, Ont., and St. Boniface, Man.

The Amazon river pours 5,000,000 gallons of water into the Atlantic ocean every second. 2576

## War Savings

Vancouver Youngsters Have Purchased Many Fighter Planes

One hundred and fifty-five thousand dollars isn't "hay", and the children of Vancouver area schools know that as much as anyone. More than \$155,000 is the amount of money they spent during the past school year on war savings stamps.

Recently, representatives from seven Vancouver schools received official recognition for their war savings activities. At Sea Island, British Columbia the seven young people christened seven fighter planes they helped to buy. Each plane was christened by a student from one of the schools in an impressive ceremony at which Squadron Leader D. L. Ramsay presented plaques carrying the R.C.A.F. crest commemorating the event to the representative children. Squadron Leader Ramsay recently returned from service as a fighter pilot in Europe and Russia.

After the official christening the planes took off and soared over Greater Vancouver so that students and the playgrounds would have an opportunity to witness what their war savings had achieved.

## Had No Money

But Captured German General Thanked Barber For Hair Cut Three top-ranking German officers captured at Cherbourg, Generals Schlieffen and Stettler and Admiral Hennecke, were taken to England.

General Schlieffen, given a haircut by an American soldier-barber, apologized because he had no money to pay and wound up signing the soldier's autograph album with "Thank you very much for the haircut.—Lt. Gen. von Schlieffen."

Admiral Hennecke remarked wryly "I was a prisoner of the British for two years in the last war. Now I am a prisoner of the Americans. Who am I going to be a prisoner of next. The Japanese perhaps."

## Not Small Affairs

Every Heavy Bomber Sent On Raid Carries Ten Men

Some people are prone to think of air operations as "raids" in which small groups of men participate. Such is far from the case, says General H. H. Arnold, Commander U.S. Army Air Forces. There are 10 men in every heavy bomber—700 bombers mean 7,000 men. A force of 600 medium bombers means another 3,600 or more men—and 1,000 fighters brings the total above 10,000 men. Ten thousand men. Ten thousand men—carrying war to the heart of Germany—400 or more miles from our bases. Such operations are not small affairs. Each one is a mission of great military magnitude.

## Sea Water

How It Can Be Made Safe For Drinking Purposes

A seaman stranded in a lifeboat without fresh water or a fier forced to take to his life raft now can get a drink from the sea with two chemical compounds compressed to the size of a bar of soap and four plastic bags having a total capacity of one quart. By dissolving one of the compounds in the first bag of sea water the unpotable elements are eliminated. Pouring the water into a second bag containing a filter removes the salt. The second compound in a third bag takes away the alkali, and a filter in the fourth bag makes the water palatable.

## The Right Answer

Military Hospital Had Asked In Vain For Assistance

In a section of a military hospital where special work is done the lady in charge has been asking in vain for assistance for months, as she finds the increasing work almost impossible to undertake.

This week two "brass-hats" inspected the place, and were delighted with the work being done. On leaving one said: "I think you're a very excellent unit here, Miss—"

"I think you've chosen the right word, Sir James," she replied. "Unit means one."

Her reply was effective. She's getting an assistant.—Glasgow Herald.

Women in Turkey's air forces are officially designated as Flying Blue Amazons.

Travel

From Hartford, England, to Quebec City by way of South Carolina is a long way to come to enlist in the Canadian Women's

Army Corps, but that is the story of Pte. Pamela Chalmers. Pamela came to the United States in September, 1940, to visit her aunt in South Carolina. While there she met Lieut. C. Kernan, C.W.A.C. recruiting officer from Quebec City, and became so interested in the Corps that she wanted to "join up" immediately. Pte. Chalmers has a sister, Zillah, serving in England with the Women's Auxiliary Air Force.

CEREMONY—

Royalty entered the military world recently, when Sgt. Christina Crowell, C.W.A.C. of Windsor, N.E., was crowned Queen of the Annapolis Valley Apple Blossom Festival. In a colourful ceremony combining an ancient English custom dating back to 871 and an old Spanish practice of presenting a golden apple symbolizing freedom, Queen Christina was crowned by Major General L. F. Page, General Officer Commanding, Atlantic Command. Army duties in busy Halifax were laid aside temporarily as the Queen gownned in white coronation robes and her CWAC ladies-in-waiting, Ptes. Marie Cupell of Wolfville, N.S., and Mary Perry of Peterborough, Ont., took part in the royal ceremony, procession and Queen's Ball which have become traditional in Canada's beautiful apple blossom country.

STUDY—

All-out for education are twin sergeants Carole and Helen Bleskie of Saskatoon, Sask., who in addition to their secretarial jobs at National Defence Headquarters, Ottawa, are taking four educational courses during their "off-duty" hours. Anxious to complete their matriculation while in the C.W.A.C. the girls are taking a correspondence course in Chemistry through the Canadian Legion Educational Service. They are also being tutored in Algebra by an officer of the Directorate of Education. Interest in Household Science led them to take a course in sewing and they recently exhibited identical dresses and lingerie in a tri-service educational display held in Ottawa. A course in dramatics rounds out their present curriculum. Next on their agenda is an Army Administration Course at Brockville, for which they are already listed.

PERSONALITY

The girl behind the CWAC camera is Cpl. Margaret Hermeston of Englehart, Ont. For the past twenty months, Corporal Hermeston has been employed as the only woman photographer in the Directorate of Public Relations (Army) in Ottawa. Off to a flying start in an Army career of "firsts" she was one of the originals to enlist in the C.W.A.C. in October, 1941.

Another "first" was the granting of special permission for her attendance at an R.C.A.F. Photographic Course at Rockville, Ont. A graduate of the Ontario College of Arts, Cpl. Hermeston hopes to be a fashion photographer after the war. She is the daughter of Mr. and Mrs. Melvin Hermeston of Englehart.

USE RECLAIMED RUBBER

As a result of the release of supplies of reclaimed rubber, arrangements have been made in India for the production in 1944 of six million pairs of canvas shoes with rubber soles and one million pairs of shoes with leather uppers for sale to the public.

Telegraph plateau is the name given to the shallow ocean bottom between Newfoundland and Ireland, where a score of cables now cross.

## SMILE AWHILE

"Talk about tough luck. I got a cheque for ten dollars the other day and the only soldier in camp that could identify me at the bank was a bird I owed eight bucks to!"

Waiter at a hotel party: Would you like a novelty for your table, sir?"

"Yes, bring me a decent steak,"

"Lily's hair is decidedly fair."

"Yes, but she only decided a week ago."

"The sergeant isn't his old self today."

"No, Indeed the improvement."

"Well, I suppose we will meet again, old chap?"

"Yes accidents will happen."

"What is a jeep file?"

"The roughest distance between two points."

Interested Hostess: "And what do the sailors do about their laundry?"

Salor: "Oh, they just throw their clothes overboard and they are washed ashore."

Science Teacher—"What happens when a body is immersed in water?"

Student (pondering, then brightening)—"The telephone rings."

"I understand she married a struggling young man."

"Yes, he struggled, but he could not get away."

Doctor Niceman (after spraying the lady's throat): "Madam, it is a pleasure to treat you—you've got such a fine control of your tongue."

Mr. Hennecke (sharply): "Here, doctor, let's have your bill. It's evident that you don't know what you're talking about."

Newly-wed Husband: Do you mean to say there's only one course for dinner tonight? Just cheese?"

Wife: Yes, dear. You see, when the chips caught on fire and fell into the dessert, I had to use the soup to put it out.

Dr. Knowalls: "You must not stay out late at night, Mr. Smith."

Mr. Smith: "Is the night air bad for my doctor?"

Doctor: "No, it isn't that. It's the excitement after getting home that hurts you."

RICH IN HISTORY

More of the world's history has been excavated in Egypt's valley of the Nile than from any other place on earth, and centuries from now, historians may dig up remains of past Nazi legions from beneath Egypt's shifting sands.

July once was called Quintilis, and August was Sextilis. At that time they were the fifth and sixth months, respectively.

## WHEAT FROM CANADA IS ONE OF ITEMS ON LIST OF GOODS FOR THE LIBERATED COUNTRIES

OTTAWA. — Woolen garments, farm machinery, canned fish and wheat will be among the items which Canada, as a member of the United Nations relief and rehabilitation administration, will be expected to furnish the peoples of countries liberated from the enemy, it was announced.

The announcement, made by Roy F. Hendrickson, head of the U.N.R.R.A. bureau of supplies, in a statement made public simultaneously in Ottawa and Washington, said arrangements were being made with the Canadian government for the production of about \$6,000,000 worth of woolen utilitarian garments to be distributed among liberated peoples.

Plans have been completed to produce approximately 25,000 tons of farm machinery for use in the liberated areas, and orders have been placed for some 14,400,000 pounds of Canadian canned fish, including canned eel, haddock, mackerel and mackerel fillets.

The farm equipment to be produced would include plows, discs, harrows, grain drills and harvesting machinery for use in the production of food crops in liberated areas.

Plans for the procurement of other products, including wheat, were being discussed.

The products would be paid for out of the \$77,000,000 voted this year as Canada's financial contribution to U.N.R.R.A.

## Canadian Navy Lent Assistance In The Invasion

ESQUIMALT, B.C. — Ten thousand Canadian sailors and 100 Canadian ships took part in the invasion of France, Navy Minister Angus Macdonald told a graduation class of 46 cadets from the Royal Canadian Naval college at Royal Roads near here.

The class was the first to complete the full two-year course for officers since the college opened in October, 1912.

The Royal Canadian Navy was doing "great and spectacular work," the minister said, pointing out that maintenance of Allied supply lines to Britain had made the invasion of the continent possible.

"The Atlantic campaign is over, but the war is not over," he said.

The R.C.N. would play its part in the war against Japan when the power of Fascist Europe would be wiped out, he said. He hoped that after the war a "proper and adequate force" of naval strength would be maintained for defence.

"I believe that just so long as merchant ships ply the seas just so long will we need to protect them," he said. "And this should not be forgotten after this war with the Axis is finished. . . I hope that the people of Canada will remember the spectacular work of the navy, the army and the air force and will insist that all three be continued after the war."

### BARLEY KING DEAD

Alberta Man Became Famous And Carried Off Many Prizes

LETHBRIDGE, Alta. — Nick Taitinger, 83, internationally famous "barley king," is dead. He died at his farm in the Claresholm district.

In 1914 his reputation as a barley grower had reached a Glasgow, Scotland, brewing firm, and they cabled him for a carload of his famous "French Chevalier" barley. In 1915 he carried off two first prizes in the Panama-Pacific exposition. One for his Marquis wheat and another for his malting barley.

The well known "barley king" took a prize at the Brewers and Malting exhibition in London, England, in 1923, the first time in 40 years the prize was awarded to a farmer outside of England. The following year he was awarded sixth prize for his barley at the Chicago International show.

**CAPTURE GERMAN GENERAL**  
LONDON. — The Russians announced the capture of Lt.-Gen. Von Luetzow, commander of the 35th German army corps, the 22nd Nazi general officer killed or captured in three weeks in Russia and France.

### Wren Stands Watch At Esquimalt

After training at the Royal Canadian Navy Signal Training Station St. Hyacinthe, Que., Irene Cheshire of Looma, Alta., is one of fourteen Wrens to take over signal bridges at Royal Canadian Navy bases. At H.M.C.S. dockyard, Esquimalt, she stands 8-hour watches alone on the signal bridge receiving and relaying messages from ships to shore during the long, hard watches.

### EASY SHAVING

MONTREAL. — Outlets for electric razors are being installed in 186 air-conditioned sleeping cars in the Canadian Pacific Railway as fast as the cars are sent to the company's shops for general repair on the wartime schedule and by the end of this year close to 50 will be so equipped.

### EDITOR DIES

WINNIPEG. — A veteran publisher, John R. Akerman, 77, died in hospital. Some years ago he published the Western Sun at Melville, Sask.

### FIRE IN JAPAN

NEW YORK. — A Tokyo broadcast reported by United States government monitors said a "disastrous fire" ravaged the Fukushima prefecture resort of Isaka Hot Springs in northern Honshu during the night of July 1 destroying 193 buildings, including 19 hotels.

### FOR FRENCH RECRUITS

LONDON. The Morocco radio said that the first Allied recruiting bureau for Frenchmen had been opened at Cherbourg.

### Lady Tweedsmuir Entertains R.C.A.F.

—R.C.A.F. Photo

Studying at Oxford University in England during their hard-earned leave periods, a group of Canadian service-people recently were guests of Lady Tweedsmuir, widow of the former governor general of Canada. In the library of her charming home, Lady Tweedsmuir discussed many of the rare volumes collected by her husband, known simply as John Buchan to thousands of Canadians who have read his books. In the above picture, Lady Tweedsmuir is shown with, left, Flying Officer Harold D. Turvey, Brantford, Ont., and LAW Kay Lewis, Sarnia, Ont., right.

### Landing On R.C.A.F. Field In Normandy

—R.C.A.F. Photo

Servicing ground personnel for the first Canadian Fighter Unit to move into an airstrip in France were flown in by Dakota aircraft of the Transport Command, manned by mixed Royal Canadian Air Force and R.A.F. crews. Spitfires escorted the flight from England, across the channel to an airstrip in Normandy from which R.C.A.F. fighter squadrons have been operating since June 10th. This fully operational unit is under the command of Wing Commander M. Brown of Winnipeg, Man. The fighter squadrons are the Wolf Squadron, the City of Oshawa Squadron and the Red Indian Squadron. A giant Dakota of the Transport Command carrying ground personnel to man the new Canadian Airfields in France churns up the dust on a hastily constructed landing strip, somewhere in Normandy. The dust is worse than the desert, dangerous for flying and choking to the lungs. (Photo by FO. Cecil Southward, R.C.A.F. Public Relations Photographer in France.)

## SAY GERMANY WAS PREPARING TO USE GIANT ROCKET BOMBS IN THEIR WAR OF ATTRITION

### ADVERSE WEATHER

Allied Efforts Hampered In Effort To Support Ground Troops

SUPREME HEADQUARTERS. Allied Expeditionary Force. The supreme command would like to reverse the one-time plea of western farmers in North America for a "rain maker" and advertise for a "rain stopper".

Gen. Eisenhower's famed weather luck which held good for the North African, Sicilian and Italian campaigns has run out both ends of the barrel and his "lucky" coins rubbed to induce good weather, have been worn water thin.

The weather has cut down efforts of the Allied air forces to halt their potential in support of ground troops.

Allied air activity over Normandy has been hardest hit by the adverse weather because flying usually has been better at night than in the day and most battle support must be flown in daylight.

England and northern France had the driest spring and winter in 25 years but this has turned into the wettest summer.

Next to enemy resistance the weather is the most important factor in amphibious warfare, and it has been so bad that it is no exaggeration to say that only the fact that the western front invasion was on such a vast scale saved the Allies from a possible defeat.

### TRYING OUT IDEA

Toronto Man Offers Used Airplanes In Exchange For Cars

TORONTO. Latest sign to appear on a used car lot here offers to trade airplanes for automobiles.

It reads: "Aircraft for sale, Cub trainers. Take cars in trade."

Murray Porfar, son of the operator of the lot and owner of the planes two Cub aircraft said, "I just want to try the idea out and see what interest there is in light aircraft."

"If my plan works out all right, I plan to go into the aircraft business later," said Murray, who recently was discharged from the R.C.A.F.

### FIGHT PATRIOTS

French Underground Is Giving German Troops Plenty Of Trouble

LONDON. German troops were reported to be pressing a large-scale drive in southwestern France in an effort to smash underground resistance, described by one French collaborator source as "a real civil war directed from abroad."

Reports from the Spanish French frontier, relayed here by way of Madrid, said the Germans had thrown tanks and bombers as well as infantry into their drive against French patriots in the Dordogne region of southwestern France.

### EARLY ADJOURNMENT

OTTAWA. Indications that parliament may end its present session earlier than has been generally anticipated were seen in reports that the budget debate in the commons will be brief and that the house will start morning sessions shortly.

LONDON. — Grim, fighting Londoners are paying in blood to with the birth of a new era in air power-flying bombs and later, perhaps, giant rocket bombs.

The death and damage the flying bombs now are doing are only a fraction of the dreadful implications they carry. From the time that they began, they have been won by killing enough of the enemy to break his will to fight and robot weapons of the future conceivably will be able to accomplish this end.

This does not mean that the Germans can achieve this during the present war. They have brought forth their weapon too late, and it has not reached the full stage of its development.

If Hitler had had his flying bomb in 1940, the story quite likely would have been different. Now he is engaged in great struggles on three fronts and losing on all of them. He cannot use the weapon effectively against armies that are throttling his regime, because it has not been developed in quantity and accuracy enough for use on the battlefield.

All he can do is lob death into London until the Allied armies overrun his launching sites and force him back from the coast. How long this will be no one can say, because Hitler is known to have other vengeance weapons than the "V-1".

The best information indicates that the flying, jet-propelled bomb has a big brother, a rocket bomb, which carries more than 10,000 tons of explosives up to a height of 40,000 feet whence it drops straight down. A big launching site, captured at Cherbourg, was designed for this weapon, and it was aimed at London.

Possibilities of the bomb's development are unlimited, and no one, not even in North America, 3,000 miles away, will be safe 10 or maybe even five years from now.

This weapon may have been the reason why the Germans did not invade England. Some think Hitler, knowing the weapons were nearing a stage where they could be used, left he could defeat England with them, and turned his manpower against Russia.

### DISLIKE WEAPON

German Soldiers Afraid Of Their Own Suicide Gun

SUPREME HEADQUARTERS. Allied Expeditionary Force. — German soldiers have a weapon they are afraid of themselves—a flat bazooka, which captured Nazis say is a "suicide gun". The pistol bazooka is loaded from the muzzle, cocked by hand and fired by pounding it with the fist. It looks like a piece of water pipe and fires a rocket grenade which has terrific power up to 50 yards, according to Maj. John A. Keck, Greensburg, Pa. Keck said the reason Germans dislike it is because it can only be fired at close range and "Jerry doesn't like to fight at close range."

### DIED IN PRISON CAMP

LONDON. Paul Emile Janson, 75, former Belgian prime minister of justice at the time of the German invasion of Belgium, has died in a prison camp in Germany, the Belgian ministry of information said.

## TRADE MINISTER PREDICTS THAT WEST WILL HARVEST BIG CROP IF PRESENT PROSPECTS CONTINUE

EDMONTON. — Trade Minister Jas. A. MacKinnon said in an interview on arrival here that western Canada will have a 500,000,000-bushel wheat crop this year if present prospects materialize. The 1943 wheat crop was 285,000,000 bushels.

The minister pointed out that July is an important crop month, and much will depend on weather conditions.

Approximately \$26,000,000 is being distributed to western farmers on participation certificates for the crop, Mr. MacKinnon said. Of this amount slightly more than \$10,000,000 is going to Alberta farmers, about \$13,000,000 to Saskatchewan, and \$3,000,000 to farmers in Manitoba. Cheques now are being mailed to farmers participating in the 1940 distribution, he added.

Creation of a wheat and grain

division within the department of trade and commerce was announced by Mr. MacKinnon, here for a short vacation. This division, he said, "will keep under constant survey Canada's grain position with reference to supply, transportation, domestic and export demands."

"As chairman of the wheat committee of the cabinet, I am constantly dealing with matters of grain policy. The director of the new wheat and grain division will serve as secretary of the wheat committee and as the department's liaison officer to the Canadian wheat board. The appointment of the director will be announced in the near future."

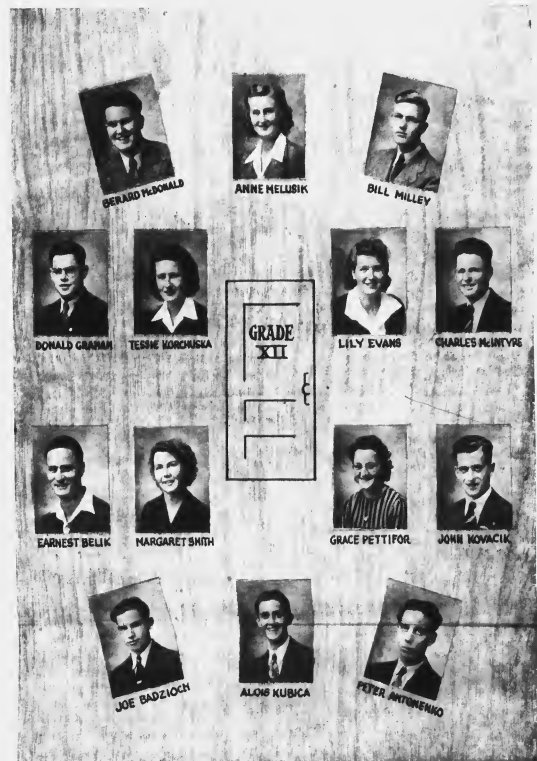

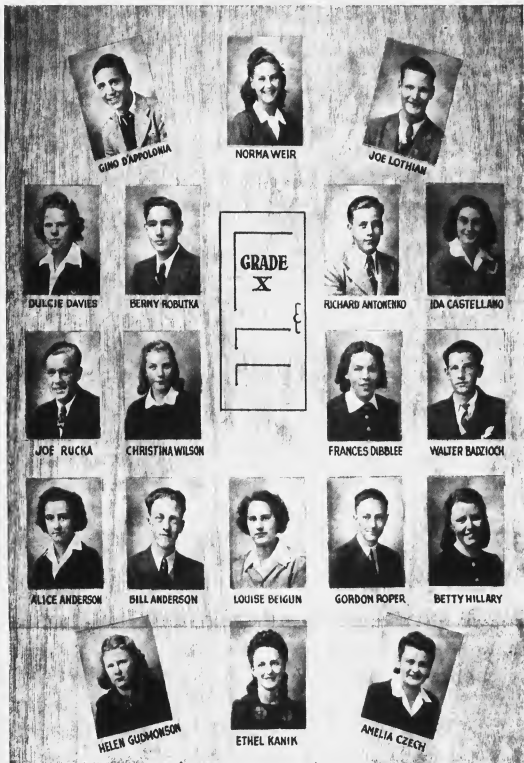

"This division will also serve as the department's procurement agency with regard to mutual aid purchases of wheat, flour, and other cereal products."

# INVASION MAKES MORE URGENT THE SAVING OF CIVILIAN GAS!

## A Message to Canadian Motorists

THE invasion of Europe has thrown a vast and critical burden upon the petroleum resources of the United Nations.

In the first eight days of the campaign alone Allied aircraft flew 56,000 sorties. Many thousands of oil-burning warships and landing barges are shuttling ceaselessly across the Channel. Tanks, trucks, jeeps, mobile artillery, ambulances, by the thousands, are in action.

The driving power behind all this activity is petroleum—gasoline and fuels drawn from a dwindling crude oil supply. But—there is only so much oil. If existing supplies are to prove adequate, the most stringent economy of gasoline and fuel oil must be practised here at home.

Canada is able to produce only 15% of her own gas and oil needs. The remainder must be imported from the common pool of the United Nations and the bulk of this is shipped here by tankers. Critical manpower is needed to produce our gasoline and oil. Precious lives and precious ships

must be risked to deliver it to our shores.

Invasions, and the difficulties of supply and transportation are not our only problems. Right here in Canada gas and oil are needed in enormous quantities for vital war purposes. The Commonwealth Air Training Plan has consumed as much as 548,000 gallons in a single day. Canada's Navy—expanded since war began from 15 ships to 650—consumes over 2,150,000 gallons every week. Army training, war plant operation, food production, essential trucking—all are huge consumers of gasoline and petroleum products.

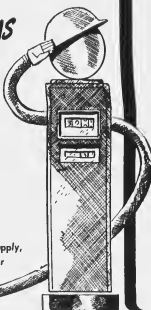

Gasoline is ammunition—ammunition of which we have all too little. To waste a gallon of it is a crime against our fighting men.

### Answering Your Questions about the Gasoline Shortage

How much gasoline was consumed during the 54 days of pre-invasion bombing? ... More than 200,000,000 gallons.  
How much fuel oil does a battleship take in one refueling? ... Enough to heat an average house for 350 years.  
How much fuel does one armoured division consume in every five miles of advance? ... 10,000 gallons.  
How many gallons of petroleum products are required to supply the needs of 500,000 European invasion troops for a week? ... Over 25,000,000 gallons.

LESS CIVILIAN GAS  
MEANS MORE  
"FIGHTING  
GAS"  
FOR THE FORCES

An announcement issued by  
The Department of Munitions and Supply,  
Honourable C. D. Howe, Minister

### Cigarette Fund Notes

Dear Sirs: We wish to thank you for cigarettes received. We are fine and enjoying lovely weather. Hope all in Coleman are o.k.—Bill, Fred, Jesse and Tommy.

Dear Friends: Thank you for the 300 cigarettes which arrived yesterday. The regularity with which these cigarettes arrive is amazing to us all.—J. T. Dunbar.

Dear Sirs: Received your parcel of 300 Winchester cigarettes a couple of days ago and wish to thank you very much.—J. A. Howarth.

Dear Sirs: Received two cartons of your most welcome cigarettes within a week. Thanks a million to you and the people of Coleman who make them available. I am still having things pretty soft instructing. I hope to have leave within the next week and then hope to meet up with some Colemanites.—Bill Naylor.

Dear Sirs: Thank you very much for March issue of cigs. Things are going well here in Italy and we are very busy at present. Sure wish I was in France now. It may not be so long till I am back in good old Coleman again. Weather here is very hot now and half the time I work in just my shorts. I have a swell tan. Best wishes to all.—Archie Wragge.

Sirs: Many thanks for the 300 Winchester cigarettes. I am fine and still in England. Haven't seen any of the boys from Coleman in a long time.—Oliver Barringham.

### WEDDINGS

#### POLITZ—D'APPOLONIA

A very pretty wedding took place at Holy Ghost church on Thursday morning, July 6, when Alma, eldest daughter of Mr. and Mrs. Edward D'Appolonia, became the bride of Joe Politz, of Banff. Rev. Father L. Sullivan conducted the ceremony.

The bride, entering the church on the arm of her father, was dressed in a white floor length embroidered sheer gown and floor length tulle veil held in place by a wreath of blossoms. She carried a bouquet of roses, carnations and ferns.

Etnes D'Appolonia, sister of the bride, was bridesmaid and chose a blue taffeta gown and a white flowered hat. She carried a bouquet of carnations and ferns.

Mary D'Appolonia was flower girl and was very pretty in a pink organdy dress.

Attending the groom was Jim Cardie, of Blairmore.

The reception was at the home of the bride's parents in West Coleman. The happy couple left for a honeymoon, following which the groom, who is in the Royal Canadian Navy, will return to his base.

At a quiet wedding in the Manse, Coleman, on July 8, Blake Barnstead Rothel of Fernie, B.C. and Blanche Mildred Paul of Michel, B.C. were united in the holy bonds of matrimony. Rev. G. A. Kettys officiating. The bride was tastefully dressed in powder-blue sheer with white accessories. Mr. and Mrs. William Rothel, acted as witnesses.

#### The Middle Road

Three managers of chicken farms in Germany were being questioned by a Gestapo man. "What do you feed your chickens?" the first was asked.

"Corn."

"You're under arrest! We use corn to feed the people!"

The second manager overheard the conversation, and tried to play safe.

"What do you feed your chickens?" came the question.

"Corn husks."

"You're under arrest! We use the husks to make cloth. And you?" he asked, turning to the third man.

"I give my chickens the money and tell them to go and buy their own food."—Tit-Bits.

"And are you really content to spend your life walking about the country begging?" asked the old lady severely.

"No, lady," answered the tramp. "Many's the time I wished I had a car."

## Exalted Ruler Herb. Sherratt's Message to The Citizens of The Crows Nest Pass

The "Brother Bills," in staging again our annual carnival, are asking the public to support it in the same manner as they have in past years.

In going over the work that the B. P. O. E. are doing in your community you will notice that the biggest part of it is helping make this community a better place in which to live. Aid is also extended to responsible war charities. Take for instance the "Save the Children Fund." This is a fund sponsored by the Elks throughout the Dominion and the money is devoted to the maintenance of a home for bombed-out British children who have been left without the care of parents. All personal as well as current expenses are paid by the B.P.O. Elks of Canada and Newfoundland. Over \$50,000 has been collected by the Dominion lodges for this work.

Local war charities appealing to us for donations have always been helped in a friendly manner.

In sponsoring a Pee Wee hockey team and also in other ways the B.P.O.E. have tried to make it pleasant for our own children.

The Xmas show for the kiddies and the hampers to needy and deserving cost us over \$200. Also the members in the services all receive Xmas parcels. Our lodge committee for looking after sick members is also a service that is much appreciated.

Let us see you all at our carnival on Saturday and Monday and I am sure you will have a good time. Bring the kids too!

## LOCAL AND GENERAL NEWS ITEMS

Mr. and Mrs. J. S. D'Appolonia and Irma were down from Creston last week to attend their niece's wedding.

Mr. and Mrs. F. J. Smith, of Winnipeg, are the guests of their son and daughter-in-law, Mr. and Mrs. Fred Smith.

Mrs. H. E. Hutton and daughter are spending a vacation with the former's sister, Mrs. Ken Blain, of Kimberley.

Mr. and Mrs. Ernest Hill and Robert and Mr. and Mrs. E. Hill sr. will leave at the week-end for a vacation at Vancouver.

Mrs. R. R. Pattinson and Georgann are spending a vacation at Victoria, the guests of Mr. and Mrs. George Pattinson.

## NATIONAL HEALTH PLAN

Announcement by Prime Minister King that public-health administration is to be under a department of health and social welfare instead of one of social welfare as recently proposed, has been greeted with satisfaction by public-health officials and the medical profession generally.

Emphatic opposition to the earlier proposal was registered by the Canadian Medical Association, the Health League of Canada, the Canadian Public Health Association, and by representative public-health men.

Reorganization was made necessary at Ottawa by the Government's decision to make pensions a responsibility of a new department of veterans' affairs.

Since 1928 both pensions and national health have been handled by one department, with two branches. The original Department of National Health was founded in 1919 after 40 years of effort by leading public men, and its institution at that time was due in a large measure to the serious venereal-disease situation at the close of the war.

In 1928, when the Department of Soldiers' Civil Re-establishment was abolished, veterans' affairs were transferred to the health department, known thereafter as the Department of Pensions and National Health.

It was the hope of the founders of the original department of health that it would grow with the years and that every effort would be made to increase its scope and influence. There were times, specially in 1932 (when the federal venereal-disease grants were abolished) when it appeared that the department would disintegrate. However, with the advent of the Hegerter report on health insurance, it was conceived that the department was entering on a new era of usefulness to the nation.

Public-health men feared that the progress of 25 years would be undone, and they expressed alarm when it was proposed that health be placed under a department of social welfare instead of being given a place of its own in national affairs.

## MOST POPULAR MUSIC

Works by British composers are especially popular among British and Canadian prisoners of war in Germany according to the requests received by Red Cross officials in England. Gilbert and Sullivan operettas, and musical comedies such as "Desert Song" and "Rose Marie," and the English musical comedy hit, "The Dancing Years," have proven most popular.

Humming birds migrate 500 miles without a stop for food or rest.

## Bossie Bosses The Job

With "Elsie the Cow" acting as a target, Corporal Albert Lemoine, of Winnipeg and Leading Aircraftman Al Feuerberg of Vancouver, hack themselves a slit trench at their new Canadian airfield in France. The Royal Canadian Air Force men attempted to shoot "Elsie" away, but she obviously wasn't bilingual!

## Firearms Control

Small Arms Should Be Kept Away From Children

Adults who own or have control over firearms also have a solemn obligation to keep them from children in whose hands they might be a menace to themselves and others. Tragic emphasis has been placed on this observation by a lengthy list of recent accidental shootings in this part of the province.

Even with the sale of ammunition subject to priority permits, there has been entirely too much shooting by boys in and around the city. A rifle and box of ammunition around the house are an ever-present temptation to a small boy; a simple admonition to leave them alone often isn't enough.

A .22 rifle is a highly lethal weapon and the carrying power of its ammunition might amaze many persons. It is not a toy. If you have firearms around the house, put them where young children cannot possibly get their hands on them.—Edmonton Journal.

## Many Executed

Germans And Others Slain For Not Working In Bombed Areas

Travellers arriving from the Reich declare defeatists and persons refusing to work in bombed areas of Germany are being executed in considerable numbers.

One person, whose position made official Nazi records available to him, said that between June 8-15 a total of 741 Germans and foreign workers were put to death in the Munich region, about 500 in the Essen area and about 1,500 in the Cologne district.

## Has Good Record

Statistics Show Saskatchewan Had Fewest Juvenile Delinquency Convictions

The Dominion bureau of statistics said 53 juveniles per 10,000 of the population of ages seven to 16 were convicted of breaches of the law during 1943, of whom 33 were convicted of major offences and 20 for minor offences. Ontario led with a rate of 73 convictions, British Columbia second with 57, Prince Edward Island 52, Quebec 50, Nova Scotia 49, New Brunswick 49, Manitoba 37, Alberta 32 and Saskatchewan 26.

## Now Hospital Ship

U.S. Navy Transport Henderson Has Been Renamed The Bountiful

The 10,000-ton Henderson, senior U.S. Navy transport, is at sea, transformed into a 500-bed floating hospital and renamed the Bountiful. The Henderson's service went back to the first World War. For much of the time since that war it made two round trips annually from Hampton Roads to Chinwangtao, China. In the hospital personnel are fifteen medical officers, twenty-one Navy nurses, 150 hospital corpsmen, three hospital corps officers and three dental officers.

A cyclone generally travels at the rate of 20 miles or more an hour, while its tropical cousin, the hurricane, sometimes attains the velocity of 100 miles an hour.

## Salvage Record

Million And A Half Tons Of Paper Collected In Britain

Almost a million and a half tons of wastepaper have been collected for salvage in Britain since the war began, according to the British Information Service. And that's not all by any means. Approximately 42,924 tons of bones, 81,407 tons of rags, 945,189 tons of kitchen waste together with the wastepaper, and large quantities of metal and rubber make up the total of three million tons of salvage.

It is interesting to compare the amount of salvage collected in Britain during December, 1943. The latest figures available, and the amount of salvage collected in the Dominion in that month, Britain with a population more than four times as great as Canada gathered together 76,723 tons of salvage during the month, whereas Canada salvaged during the same period approximately 22,762 tons.

If Canada's population were equal to Great Britain's and the amount of salvage proportionately increased, this would come to approximately 100,000 tons for the 31 days. No bad record!

## DOING BIG JOB

At the motive power terminals of the Canadian National Railways in Toronto 48 women have replaced men as wartime engine cleaners. They include a grandmother and a girl four feet 11 inches in height who claims the title of "smallest woman doing the biggest job in Canada."

## SUCCESSSES AND FAILURES

OF ISRAEL

Golden text: Righteousness exalteth a nation; but sin is a reproach to any people. Proverbs 14:34.

Lesson: Judges 2:1-3:7

Devotional Reading: Psalm 138.

Explanations and Comments

**Stem Words for Israel's Faithlessness.** Judges 2:1-5. The angel of Jehovah came up from Gilgal to Bochim. "Angel" means "messenger", but Judges 6:11, 12; 13:3, 21 show that he was thought of by the writer of Judges as Jehovah himself. Gilgal was the site near Jericho where the Israelites first encamped after crossing the Jordan. Bochim was probably in or near Bethel, for Bethel is given in its stead in the Septuagint Version.

God had kept his part of the covenant with the people, but they had failed to keep their part. Because they had sinned in adopting the false gods of the native peoples of the land, these gods should be a snare unto them, and the peoples as thorns in their side. On hearing this condemnation and coming judgment, the people lifted up their voices and wept. Therefore they called the place where the message was given Bochim, Weepers.

Dr. Alexander MacLaren partially excuses the people for their lapse into idolatry by recalling that the revelation of the One God had been put recently received and imperfectly assimilated, that its requirements of purity were most stringent. Moreover, because Joshua had died without a successor the tribes had been scattered, and much of the country was still in the hands of its earlier possessors, and it was extremely difficult to maintain any sort of unity. "The conception of one sole God was too high to be easily retained. A shrine without a deity seemed bare and empty. The Law stringently bridled passions which the hideous worship of the Canaanites stimulated."

**Retrospect: Allegiance to Jehovah under Joshua, Judges 2:6-10.** As long as Joshua lived, and in the time of the elders who outlived him—the men who had seen the great deeds of God wrought for Israel—all that generation died. The new generation that succeeded them knew not Jehovah nor did they know the work which he had wrought for Israel.

Now we are told that a livingroom 60 feet long will be ideal for the home of tomorrow. That should mean at last 15 years before the wire runs out of places where the davenport would look better.

## WORLD HAPPENINGS BRIEFLY TOLD

Many of the 800 Canadian nurses assigned to the South African Military Nursing Service in 1941 are still on duty there.

In the 20 months since its first training class of August, 1942, the W.R.C.N.S. has reached a total enlistment of 4,779 by May, 1944.

Vancouver shipping authorities claim it costs 13 cents more to send a bushel of wheat to California than to China.

Alberta's 219 co-operatives did \$80,000,000 worth of business in 1943, according to the provincial supervisor of co-operative activities.

Sir Samuel Hoare, ambassador to Spain, has been made a viscount, an announcement from Prime Minister Churchill's residence said.

John Peacock, director of egg supplies in the British Ministry of Food, told the Canadian Produce Association that "dried eggs have been an absolute Godsend to us."

The British Commonwealth Air Training Plan has almost 12,000 planes, more than 5,000 single-engine aircraft and nearly 6,000 twin-engine.

A tank was at sea in a landing craft off New Britain when several troop-laden Japanese barges were seen. The tank crew opened fire and sank one and patrol boats sank others.

In Geneva, Switzerland, a special depot has been set up to arrange distribution of Canadian Legion Educational Service courses to all British prisoners of war in Germany, including those at the University level.

## HAD REAL GRIEVANCE

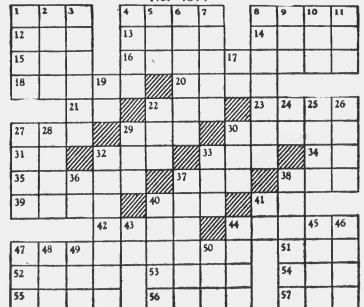

Sometimes there is a pathetic difference in what is said by the "grown-up" and what is understood by the child. One mite, told to sit in his high chair "for the present," expressed his injured feelings at last by saying:

"I have sat and sat, and have had no present."

The "octane" was established as a basis of gasoline value in the first Great War. 2576

# OUR COMPLETE SHORT STORY—

## Tomorrow Never Comes

By ALICE M. SNOW  
McClure Newspaper Syndicate

Pamela Trevor, the small slight girl with the honey-colored hair, bent her head over her sewing while her cheeks grew pink and her fingers clenched on the needle.

Miss Jenny's Victorian parlor was the official place for the community club and now a few dozen women talked and sewed, knitted and sighed while the sun coming through the trees inched along the rose-bordered carpet.

"Makes me sick!" Amanda Hawes was apparently voicing some deep-felt conviction, for her eyes snapped apart and the set of her mouth forbade contradiction.

Miss Jenny glanced up mildly. "What does Amanda?"

"This business of young people rushing into marriage with selectees. It's absolute nonsense! There've been at least a dozen in this town. Sentimental, lovesick idiots, can't wait until tomorrow!"

Pamela glanced up sharply. The needle she was holding jabbed her finger and she looked stuffy at the tiny drop of blood that came from the wound.

"It should be stopped!" Amanda got up and it seemed to Pamela that the hard eyes bored directly into her. Let her talk. Pamela's lips tightened and the soft line of her chin grew severe. She rose from her chair.

"You— you old maid! How dare you speak like that? You sit there in the snug little nest of your own making and call those who live for today sentimental, lovesick idiots. I can tell you, Amanda Hawes, tomorrow never comes!"

Pamela dropped her fierce tone. She walked to the door, shoulders quivering. "I—I'm sorry to act this way, but you goaded me into it. I want you all to know that I'm marrying Paul Freeman tonight. Her blue eyes filled with tears. "We're not having a wedding because we can't afford it, though I always dreamed of orange blossoms, a veil and people in a church happy for me."

The door closed gently and for a moment no one spoke.

Miss Jenny's face under the neat row of white curls was a study. Her fingers pleaded and unpleaded the folds of her calico skirt.

"Well, Amanda," she said finally. She was remembering a tall dark man and a younger Amanda who had said scornfully, "You can't make a living for yourself—and until you can't come near me, Jed Howard."

Amanda Hawes' face looked pinched but her shoulders lifted angrily. "I never in my life heard the likes of it!" This time the door slammed and the sound was like a sharp clack of thunder.

Four hours later the scene at Miss

Jenny's was decidedly festive. Pamela Trevor was standing on a hassock in the middle of the room while Lou Wheeler pinned up the hem of a white satin gown.

"Lucky my Judy left her wedding dress at home. It's a perfect fit except for length. And here is the veil. The orange blossoms are being sent over. Pam, you lucky, lucky girl! This wedding will beat any Stockholm has ever seen. All the young folks are over trimming the church. Somebody brought white satin streamers and a length of carpet for the aisle. They are making ice cream out in the kitchen, and the wedding cake is to be five layers high with a tiny bride and groom on top. Oh, Miss Jenny, does this hem look even?"

Miss Jenny's curls were disheveled but her eyes sparkled. "It's fine, Lou. Just finish that and then all will be ready."

In the entry of the church the bridesmaids clustered, their gowns bright spots of color among the dark dresses of the older people.

"Such a beautiful wedding! And wasn't it unique when it was announced that the town of Stockholm gave the bride away?" Every single person did some little thing. They said it was all Miss Jenny's idea. Isn't she a darling?"

Out on the steps Miss Jenny watched the small boys stuffing the remains of the wedding cake. Paul Freeman's car was adorned with red white and blue streamers. Several people stood around with the inevitable rice. Everything, Miss Jenny decided, was absolutely perfect. She started as Amanda Hawes came up and touched her on the arm.

"Miss Jenny"—Amanda's face wore a strange writhing smile. "Sometimes folks get too stubborn for their own good. I guess that was the trouble with me. For ten years I've—well, anyway, today has made a change somehow. I'm giving up my house here. Jed—Jed Howard, you know, is in the West and I wired him that I'm coming."

"I'm glad, Amanda. I know you'll be happy." Miss Jenny's taffeta-clad figure seemed to grow taller. As she went down the walk she thought of Amanda and Jed Howard, but even more she thought of another who forty years ago had voiced Pamela's thought: "Tomorrow never comes."

Miss Jenny smiled. Turning toward home, her eyes picked out a star that hung low over the trees. "Well, Nathan," she said tremulously, "I hope you were listening in."

## Etchings Of London

Exhibit Of Souvenirs In Aid Of The Merchant Navy

Etchings of London, loaned by L-Cpl. Joyce Harper and Cpl. Edna Maguire, formed an attractive background for the exhibit of souvenirs and curios held in aid of the Merchant Navy by an Overseas Company of the Canadian Women's Army Corps. Proceeds of the exhibit amounted to nearly three pounds (fifteen dollars) in three days.

Several pieces on display were the property of Cpl. Elizabeth Williams of Sydney Mines, N.S., an ardent collector of curios, and included an antique carved wooden spoon purchased in Aberystwyth, Wales, and a green pottery jug made by her during a pottery course sponsored by the Canadian Legion Educational Services.

A pair of Lancashire cloths contributed by Pte. Alice Ricker of Welland, Ont. attracted considerable interest, as did some antique brass pieces, the property of Pte. Kay MacLean, New Glasgow, N.S.

Other interesting exhibits included some gold leaf from the ceiling of St. Paul's Cathedral, pieces of Chinese carving in ivory, and a Greek oil lamp.

## To Develop China

Canada May Profit By Post-War Reconstruction Program

China has drawn up an ambitious post-war reconstruction program into which Canada might fit as a supplier of goods which the Chinese themselves will be unable to produce in quantity for some years, it was learned here.

President Chiang Kai-shek recently outlined a tentative 10-year program calling in part for construction or acquisition in that time of:

12,500 miles of railways; 141,000 miles of highways; harbors with a capacity for 100,000,000 tons; 3,000 locomotives; 451,570 passenger automobiles; 3,063,300 tons dead weight in merchant shipping; 12,000 passenger planes; 10,000,000 houses; 82,100 hospitals; 18,000,000 radio sets.

The program also envisages extensive development of the country's Hydro-Electric power, its waterways and weaving industry.

## The Mosquito Plane

Some Interesting Information About Its Construction

"Wood, glue and two engines," that's how the British Information Service describes a British "Mosquito."

Apart from its landing gear and engines, it contains no metal. It is built of wood bonded together with a plastic. The fuselage is made in two halves and stuck together. As they put it "Any competent carpenter with a saw and chisel can effect major repairs."

A Mosquito can carry 2,000 pounds of bombs. It has a very long range and is so fast that it can draw away from most fighter opposition. The British have used it with great success as a night intruder and a "train-buster." Experts say that with one motor stopped it can go faster than a heavy bomber flying all out.

The moon revolves around the earth at a speed of 2,300 miles per hour.

## Battle Of Weeds

They Compete With Crops For Water And Other Nutrients

The production of crops is largely a battle with weeds. Because weeds compete with crops for water, light, and the mineral nutrients found in the soil, the argument that a few more weeds cannot make any difference to the crops shows a lack of knowledge of the competition which the crops have to meet from weeds in infested fields, states the National Weed Committee. Many people accept such weeds as lamb's quarters and pigweed as a matter of course, but the amount of water required to produce one pound of lamb's quarters (dry weight) is very much greater than that needed for a pound of oats. Oats require 597 pounds of water to make one pound of dry matter, but one pound of lamb's quarters uses up 801 pounds of water.

In recent years, natural causes have led to at least a temporary reduction of weed infestation in various places. In some districts, the prevalence of grasshoppers has resulted in a decrease in the growth and vigour of sow thistle. A succession of dry seasons has been followed by less trouble from wild oats. Canada thistle, probably because of combined insect damage and dry seasons, has practically disappeared from areas where it was a great pest a few years ago. However, the opportunity for re-infestation through a change in conditions is a factor that has to be guarded against.

The roots of wild bindweed often penetrate to the depth of seven feet, sufficient plant food being stored in the roots to keep the weed alive for two years. Concerning weed-damage to crops, the Field Husbandry Division, Dominion Experimental Farms Service, has found from experiments carried out at the Central Experimental Farm, Ottawa, that the average loss to grain crops due to mustard over a period of five years was 12.7 per cent.

## Rose Hips

Britain Harvests 500 Tons For Making Vitamin Syrup

Roses have always been a synonym for beauty. They can also stand for health. In the Old Country the gathering and making into syrup of the fleshy red fruit of the wild rose has provided substantial amounts of vitamin C for Britain's babies. In 1943, 2,500,000 bottles of rose hip syrup were made from the 500 ton harvest.

Rose hips are an extremely rich source of vitamin C, the food element which is in shortest supply in the Canadian diet.

The Nutrition Division of the Department of Pensions and National Health advises making a mental note of the spots where wild roses bloom so that in the fall, their fruit may be gathered and made into health-giving syrup or jam.

## JUST A DIVERSION

Less than 14 hours after he was on an operational flight over the Allied beachhead in France, Robin Allen, a sergeant engineer in the R.A.F., comed at a musical festival at his home in Brighton, England, and won a silver challenge cup for solo singing. Then he returned to his flying.

Soviet Russia was the first country to train armed parachutists.

## SELECTED RECIPES

Eggs are "rolling in" to market, and they'll doubtless serve as the mainstay of many a meal this year. There will be plenty to go around and everyone will be able to fill his quota of four eggs a week, as stipulated in the rules of the Basic Seven. This vital food saves on ration coupons when served as the main course of a meal, and will be a help to housewives in planning menus. Furthermore, eggs are excellent sources of iron, calcium, phosphorus and Vitamin A, B1 and B2.

The following two recipes give new zest. They all call for cracker crumbs. The distinctive salty flavor of the crackers combines well with eggs for a special taste treat. Crackers are one of those plentiful unrationed foods that the "Food Conservation" program is recommending to be used as substitutes or alternates for scarce products:

### CRACKER OMELET

4 eggs  
1/2 cup milk  
1/2 cup cracker crumbs  
1 teaspoon melted butter  
1/2 teaspoon salt  
Pepper

Roll fine enough crackers to make a half cup of crumbs. Soak the crumbs in milk. Beat the eggs until light and combine with the milk and crumb mixture. Season with salt, pepper and melted butter. Melt a small amount of fat in a frying pan. Pour in the mixture, cover, and cook slowly over a low fire.

### CHEESE FONDUE

5 eggs  
2 cups milk  
2 cups cracker crumbs  
1/4 teaspoon dry mustard  
1/2 teaspoon dry mustard  
1 lb Canadian cheese, shredded  
Roll fine enough crackers to make two cups of crumbs. Beat the egg yolks, add the milk, cracker crumbs, seasonings and shredded cheese. Fold in the stiffly beaten egg whites. Pour into oiled, or greased, custard cups, place them in a pan of hot water and bake in a very moderate oven, (325-degrees), until firm. Unmould and serve.

### WANT ENGLISH TEACHERS

The Emperor of Abyssinia is to ask Britain to send to his country a number of English teachers to train native teachers for work in new "enlightened" schools which he is to establish as a result of his observations of our methods during his exile in England.

Hollywood studios often rent genuine Victoria Crosses and other military medals from their owners, paying from \$50 to \$900.

## Tribute To The British

Secretary Of U.S. Navy Reminds Us Of Their Courage

James Forrestal, Secretary of the U.S. Navy, in an address at Princeton, said:

But let us never forget it was the little island of England in the summer of 1940 and in the hard and bitter months of 1941 that bore the full brunt of the German Luftwaffe and finally drove it out of the English skies. The pitifully small but gallant forces that England could spare for the campaign in Greece, Crete and North Africa were decimated and battered, but never beaten. Let us not forget that although, as someone said to me in London, in that bleak winter of 1941 "there was no light in the tunnel of darkness," the fires of the English spirit never died.

## This Week's Pattern

By ANNE ADAMS

Ruffles accent slim figure lines in simple-to-sew Pattern 4813. With "open-for-summer" neckline, front buttons for "press 'n' dress" speed.

Pattern 4813 comes in misses' sizes: 12, 14, 16, 18, 20, women's: 30, 32, 34, 36, 38, 40, 42. Size 16 takes 3 3/4 yards 35-inch cotton.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

"Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

Buy War Savings Stamps regularly.

## Sterling Silver Service Buttons

For Relatives of Men and Women in Armed Forces!

Wear a sterling silver button showing the number of a son, daughter, sister or brother YOU have serving in the armed forces! There are lapel-style buttons for men, pins for women, enamelled in the patriotic red, white and blue, numbering from one to five. Actual size, sketches. Each 1.25

All Taxes Included  
**SIMPLY IN SIGNS**  
816 Yonge St., Toronto, Ont.

## "RICKY" Draws The Beachhead

Flying Officer H. Rickard, cartoonist attached to the R.C.A.F. Public Relations unit overseas, has captured with his facile pencil the spirit of Canadians at war. Above he depicts the first landing by an R.C.A.F. aircraft on an as yet unoccupied beachhead airstrip. As "Ricky" pictures him, the young Spitfire pilot who has been battling in deadly seriousness with the Hun and has come down to refuel and rearm, is surprised—almost bewildered—by the ferocity with which the "servicing commandos" attack the job of putting his aircraft in shape to re-enter the fight.—R.C.A.F. Cartoon.

Mr. and Mrs. H. Sherratt returned home on Tuesday, after a vacation spent at the Pacific coast.

Messrs. George Pattinson and William, Cole are expected to arrive in the Pass on Saturday afternoon.

Mrs. Jack Wilson returned home last week from a vacation spent at Nelson.

Mrs. Tony Servello, of Fernie, is the guest of her parents, Mr. and Mrs. J. Spievak sr.

Mr. L. Hartman has recently purchased Mrs. R. Ferguson's residence on Second street.

Mrs. James Moore will leave on Saturday for Omaha where she will visit relatives for several weeks.

Mr. and Mrs. Steve Penny and Sheila will leave Friday morning for a vacation at the Pacific coast.

Mrs. E. Fontana and daughter Gale left Tuesday morning for Vancouver where they will visit relatives.

Miss Joanna Yurasek has returned to Vancouver, after visiting her parents, Mr. and Mrs. John Yurasek.

The Salvation Army Home League Tea and Pantry Sale will be held on Saturday, October 7. Please reserve this date.

The Misses Esther and Theresa Silver, of Kimberley, were the recent guests of their grandmother, Mrs. F. Oliva.

Clifford Ironmonger, of Trail, is the guest for the summer months of his grandparents, Mr. and Mrs. Frank Paterson.

Mr. and Mrs. Rod Rhodes and children, of Cowley, are the guests of Mrs. Rhodes' parents, Mr. and Mrs. Wm. Antle.

Miss Blossom Franz is attending the Calgary Stampede. She will also visit her sister, Mrs. E. Gibson, of Nanton.

Mrs. Joe Mikase has been visiting her sister, Mrs. M. Michael, at Seattle for several weeks. She is expected home next week.

Mr. and Mrs. James Cousins and son Bill will leave Friday for Edmonton and Ipsas. Mr. Cousins will attend summer classes at the university.

Wyndham Jones, of Montreal, is visiting his brother Reg. for two weeks. They travelled to Calgary to attend the last two days of the Stampede.

Gail Murdoch accompanied Mrs. R. R. Pattinson and Georgann to Vancouver last week and is now the guest of her grandmother for the summer months.

## MISCELLANEOUS SHOWER

A shower was held in honor of Miss Emily Mikonvitch in the Polish hall on Wednesday, July 5, with many friends present. Whist and Bingo were played, winners being Mrs. Lant, Mrs. Yurasek and Mrs. Churla. The bean contest was won by Mrs. Churla, musical chairs and soap contest

were won by Mrs. S. Sybulski and Mrs. T. Hill.

The guest-of-honor was the recipient of many lovely gifts for which she thanked her many friends. Thanks was also extended by the honored guest to the hostesses Mrs. Pozniak, Mrs. Kuklyn, Mrs. T. Hill, Mrs. Urbanik and the Misses Lena Snider, Bela Kroll, Mary Pavlus. During the evening a dainty luncheon was served by the hostess.

## CARD OF THANKS

I wish to thank my many friends who made my shower a success and I especially thank the hostesses, Mrs. Pozniak, Mrs. Kuklyn, Mrs. Hill, Mrs. Urbanik and the Misses Lena Snider, Bela Kroll and Mary Pavlus. Most sincere thanks are extended to the senders of the many lovely gifts I received—Miss Emily Mikonvitch.

A very well attended birthday party was held at the home of Elizabeth Pedosuk. About thirty little friends had a grand time. After playing many games a very dainty lunch consisting of strawberries, ice cream, sandwiches, soft drinks, cake and cookies were served to the young merry-makers. The children derived much fun from wearing queerly shaped hats.

After a number of snap shots were taken, the youngsters sang, "For She's A Jolly Good Fellow"

and then departed for their respective homes carrying a bag of peanuts and candy each. Elizabeth was the recipient of numerous lovely presents.
